MEMORANDUM FOR: The Honorable Gerard C. Smith,
Director
United States Arms Control and
Disarmament Agency
Department of State

SUBJECT : Current Soviet Foreign Policies

The attached memorandum was prepared in response to your request for our views on Soviet policies regarding SALT. It seems useful to us to set these in the context of Soviet policies generally. It was, of course, drafted without the benefit of anything new Gromyko might have brought out in his conversation with the President yesterday.

R. J. SMITH
Deputy Director for Intelligence
